Experience

APR 2020 - PRESENT

Self-employed Full-stack Web Developer

Design, develop and modify websites from layout to function, create mobile-first and user-friendly design, and continually learn and advance web dev skills by taking online courses and studying technology documentations.

- ❖ www.likeswave.com - Social Media Growth Service Website.
Developed the project from scratch, designed website wireframe, layout, UI, and user flow model, allowing users to quickly find relevant information and make purchases with shortest steps and minimum effort.
Created dynamic and fully responsive frontend templates with HTML/CSS/JavaScript/Bootstrap/Jinja.
Collaborated with a fellow developer in building the website's backend using Django and PostgreSQL.
Manage the website's SEM to ensure web traffic, page views.
Analyze user behavior and user flow to improve, and add new features to the website.

NOV 2019 – MAR 2020

Apprentice / Coding Dojo | Burbank, CA

- ❖ www.arjangdev.site - Personal Portfolio Website.
Created dynamic and fully responsive frontend templates with HTML/CSS/JavaScript/Bootstrap.
Designed mobile-first and responsive layout and styled with Bootstrap.
Building the website's backend using Django and PostgreSQL.
